Subject: DM 10-328 Usource, elec agg, change in information

Thomas,

This is a follow up to the voicemail message I left for you.

As I mentioned in my message, a customer in New Hampshire Electric Cooperative service territory called stating that Usource contacted him regarding electric supply service, and that he checked the PUC's website and saw that NHEC is not included among the areas in which Usource conducts business. The application you filed with the PUC under the docket cited on the subject line above did not include NHEC among the geographic areas Usource intends to serve, so the PUC's listing does not include that geographic area for Usource.

Based on Usource's contact with a potential customer in NHEC territory, it appears that Usource now intends to provide service in that geographic area, and pursuant to Puc 2003.04 (j), Usource should file a notification with the Commission confirming that intent.

Puc 2003.04

(j) Each aggregator shall notify the commission of any changes to the information required in this section within 30 days following the effective date of the change.

Please confirm by reply e-mail that Usource does intend to provide service in the NHEC territory. In addition, in order to complete this filing, you should file a notification letter on paper and electronically as follows.

Mail an original and 2 copies of the letter to:

Executive Director
NHPUC
21 South Fruit St., Suite 10
Concord, NH 03301

Email a PDF version of the letter to executive.director@puc.nh.gov

Please contact me if you have any questions.
