Note: "Total Calls Answered" is measured from when the call leaves the automatic menu system and enters the queue to be "live answered" by a customer service representative. However, a call that never leaves the automatic menu system is also included in the number of calls for purposes of the monthly and annual reported results.

\*Note: January call answering service level improved by 12%. Over 4,000 more calls were answered within service level as compared to December. This resulted in the rolling 12-month average increasing 1.6% points. We expect to meet/exceed the monthly service level target for the month of February 2015.
