Re: DE 11-100, Conservation Services Group's Certification Application  
Pursuant to RSA 362-F on behalf of Princeton Crossing L.P.  
Request for Additional Information

Dear Ms. Hamilton:

On May 6, 2011, the New Hampshire Public Utilities Commission (Commission) received an application from Conservation Services Group on behalf of Princeton Crossing L. P. (Princeton Crossing) requesting certification for the Princeton at Boston Road photovoltaic facility as a Class II renewable energy source pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law. Staff has reviewed your application and has noted the following items that must be addressed before your application is considered complete:

- 1.) Section II of your application identifies one 120.96 kilowatt (kW) photovoltaic facility located at 499 Boston Road, Billerica, Massachusetts. However, the interconnection agreement lists five individual facilities, each having a nameplate capacity (direct current) ranging from 30 kW to 75 kW, totaling 195 kW. Does Princeton Crossing wish to certify only one facility or all five facilities?
- 2.) Exhibit F of the interconnection agreement lists the five facilities as located in Lowell, while Attachment 1 of the same document states Billerica. Please provide the correct address for the facilities.

- 3.) If Princeton Crossing wants to certify all five facilities, does it also want to include these facilities in its aggregation approved by the Commission in DE 10-156?<sup>1</sup>
- 4.) If Princeton Crossing wishes to certify all five facilities under a new aggregation, what is the NEPOOL GIS facility code?
- 5.) Attachment 2 of the interconnection agreement states that Massachusetts Electric Company (MEC) will install a new bidirectional power flow meter at each building. Has MEC installed all of these meters? If so, please provide each facility's meter installation date.
- 6.) Have these facilities and the resulting aggregation been certified to receive renewable energy certificates under another state's renewable portfolio standard program? If so, please provide supporting documentation.

These items must be received by the Commission to complete your application. Until such time, it will not be processed. If the requested information and documentation are not provided within ten business days, your file will be closed without prejudice. Please refer to docket number DE 11-100 in all future correspondence with the Commission. Should you have any questions, please do not hesitate to contact me. My phone number is 603-271-2431 and my e-mail address is [maureen.reno@puc.nh.gov](mailto:maureen.reno@puc.nh.gov).

Sincerely,

A handwritten signature in black ink, appearing to read 'Maureen L. Reno', with a stylized, flowing script.

Maureen L. Reno
