Steve, thanks for the voicemail from Friday. If the company could file a letter in the docket with Debra Howland and clarify Rosebrook wasn't part of the auction, that would be great - including perhaps why it wasn't, to the extent relevant, as the company's data responses, and even the auctioneer's website (<http://www.paulmcinnis.com/auctions/mt-washington-bretton-woods>) appeared to confirm it would be.

If you need to discuss further for any reason, feel free to give me a call.

Thanks,  
Doug
