Re: DM 11-256, Secure Energy Solutions, LLC
Registration as a Natural Gas Aggregator

Dear Mr. Duby:

On November 30, 2011, Secure Energy Solutions, LLC (Secure) filed with the Commission an application for registration as a natural gas aggregator, together with the application fee of \$250.00.

Commission Staff notes that Secure has engaged in natural gas aggregation business in New Hampshire with one customer since June 2009 without being registered, an oversight that has been mentioned by Secure in its application on Secure's own initiative. Despite this oversight, and in light of Secure's candor and effort to come into compliance with New Hampshire registration requirements, Commission Staff has determined that the application for registration as a natural gas aggregator meets the requirements for registration pursuant to N.H. Code Admin. Rules Puc 3003.04. On January 23, 2012, Staff filed its recommendation to approve the application, with the expectation that Secure will remain cognizant of Commission requirements going forward. The Commission will approve the registration with an effective date of February 1, 2012. The registration will expire at the end of business on January 31, 2014.

Additionally, please bear in mind that, pursuant to N.H. Code Admin. Rules Puc 3003.05 (a), each aggregator shall re-register with the Commission by filing an application for renewal at least 60 days prior to the expiration of its registration, i.e., in the case of Secure, on or before November 29, 2013. Registration instructions and a checklist of requirements to properly file a renewal registration application are located on the Commission website at <http://www.puc.nh.gov/Gas-Steam/CNGS-Aggregator%20registration%20application%20instructions%20and%20checklist.pdf>.
