Re: **DE 12-034, DE 12-035** New Hampshire Electric Cooperative, Inc. Certification Applications for Class II Eligibility Pursuant to RSA 362-F on behalf of homeowner Henry H. Damon and the Plymouth Village Water & Sewer Department

Dear Mr. McNeil:

On January 31, 2011, you submitted applications on behalf of homeowner Henry H. Damon (Damon) and the Plymouth Village Water & Sewer Department (PVW&SD) requesting the Commission grant approval of photovoltaic facilities located at the Damon residence and at the PVW&SD facility to produce Class II, Renewable Energy Certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed these applications and has recommended approval of the Damon and PVW&SD photovoltaic arrays as eligible for Class II RECs effective January 31, 2012.

Since both facilities are customer-sited sources, the output is not recorded in the New England Power Pool Market Settlement System and, as a result, the output must be monitored and verified by an independent monitor. Your application states that NHEC will monitor the facilities' output as required by N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. These facilities' total output will also be included in the *NHEC Class II Aggregation's* total output reported to the NEPOOL Generation Information System as approved by the Commission on April 9, 2010.

The details for these facilities are listed in the following table.

<b>Docket #</b>	<b>Facility Owner</b>	<b>Facility Location</b>	<b>Operation Date<sup>1</sup></b>	<b>Total kW listed in application (DC Arrays)</b>	<b>Effective Date to Produce RECs<sup>2</sup></b>	<b>NH Certification Code</b>
DE 12-034	Damon	Center Harbor, NH	11-29-11	4.73	01-31-12	NH-II-12-003
DE 12-0345	PVW&SD	Plymouth, NH	12-22-11	9.2	01-31-12	NH-II-12-004

The Commission has determined that NHEC has provided all the information necessary to demonstrate these facilities' eligibility for certification and hereby certifies the Damon and PVW&SD photovoltaic arrays as eligible to receive Class II RECs effective January 31, 2012.

Sincerely,

Debra A. Howland  
Executive Director

---

<sup>1</sup> NHEC considers the operation date listed in the table above, and in Exhibit E of each application, to be the date on which NHEC inspected each facility and installed a revenue quality meter to record the electricity that will be eligible for Class II RECs. The date listed in each interconnection application pertains to the installation and interconnection of the facility and may be different than the operation date listed in the above table.

<sup>2</sup> This is the effective date to produce RECs if the Commission approves this facility eligible to produce Class II RECs.
