All Business offers are Annual Plans. Customer defaults to same rate on a M2M basis at month 13.

Variations and Freedom are "bundles" of ILEC services (dial tone, voice mail, call forwarding, etc.) that when combined with DSL, reduce the DSL rate. The Basic package is designed for entry level Internet users or those businesses that use Internet service mainly for email and do not require high speeds.

> Basic packages - 10 .net email boxes

Premium packages are for customers who move large files (3M or 7M), wish to host websites, e-mails servers or FTP sites (Static service). Premium packages provide the ability to monitor security cameras, set up credit card machines and provide web space for business visibility and customer transactions.

> Premium Packages - 10 .net email boxes or 3 domain name email boxes, unlimited mobility, 1 static IP address (with static service) 1 year free domain name registration, 20 M personal web space, reduced price modem or modem/router, 1 Free Internet Security Suite for Single PC, and reduced pricing on initial technician installation

New Business DSL customers pay a 1-time charge of \$30.00 for Shipping & Activation
