Company Responses
To Patnode Set 2 Data Requests
September 26, 2007

Patnode 2-24: Again in reference to the response to Staff 1-83; please define the "...current telecom market..."

Response:

The current telecom market includes wireless, wireline, satellite and broadband providers already offering telecommunications services to customers, which are providing customers with the same functional capabilities as provided by the Petitioners' traditional landline services. See response to Patnode 2-25.

Timothy W. Ulrich is responsible for this response.
