Re: **Docket No. DE 12-220** Wagner Forest Management, Ltd.'s Request for Class II Eligibility for the Photovoltaic Array at 150 Orford Road, Lyme, NH Pursuant to RSA 362-F

Dear Mr. Novello:

On July 19, 2012, the PUC received an application requesting that the Wagner Forest Management, Ltd. (Wagner Forest Management) photovoltaic facility be granted eligibility for Class II RECs pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard (RPS) law. Staff reviewed the Wagner Forest Management application and requested additional information on August 03, 2012. The information required to complete the application was received on August 20, 2012. Staff has reviewed the application and all submitted information and recommends approval noting the application was completed August 20, 2012.

Class II eligibility requires a facility to produce electricity from solar technologies and to have initiated operation after January 1, 2006. The application indicates that the Wagner Forest Management installation, located at 150 Orford Road, Lyme, NH, began operation on July 19, 2012. Pursuant to Puc 2502.13, Wagner Forest Management is a customer-sited photovoltaic facility; therefore, its output is not recorded in the NEPOOL Market Settlement System and must be monitored and verified by an independent monitor. The application states that A. Quincy Vale, Vale Law for Energy and the Environment, will serve as the facility's independent monitor as required by the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5). The nameplate capacity of the system is .024 megawatt (MW) of electrical production.

The facility's New England Power Pool (NEPOOL) Generation Information System account number is 15021. The New Hampshire single certification code for the Wagner Forest Management photovoltaic facility is NH-II-12-056.

Staff has determined that all necessary information has been provided to demonstrate Wagner Forest Management's eligibility for certification to produce New Hampshire Class II RECs. Based on Staff's recommendation, the Commission hereby certifies the Wagner Forest Management photovoltaic array as a Class II renewable energy source effective August 20, 2012.

Attached please find a copy of the notice of this certification provided to the GIS administrator.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Debra A. Howland  
Executive Director

Re: **Docket No. DE 12-220** Wagner Forest Management, Ltd.'s Request for Class II Eligibility for the Photovoltaic Array at 150 Orford Road, Lyme, NH Pursuant to RSA 362-F.

**New Hampshire Certification Code NH-II-12-056**

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the Wagner Forest Management photovoltaic facility as a Class II renewable energy source effective August 20, 2012. Accordingly, the Wagner Forest Management photovoltaic facility is eligible to be issued New Hampshire Class II renewable energy certificates.

The Wagner Forest Management photovoltaic facility is a .024 megawatt (MW) customer-sited photovoltaic array; it began operation on July 19, 2012. The facility's independent monitor A. Quincy Vale, Vale Law for Energy and the Environment, will verify and report the electrical production to the New England Power Pool Generation Information System (NEPOOL GIS) as required by the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5). The applicant's NEPOOL GIS account number is 15021. The facility's New Hampshire certification code is NH-II-12-056.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Debra A. Howland'.
