RE: DE 12-262, CORE Energy Efficiency Programs
Ancillary Savings Report

Dear Ms. Howland:

In Order No. 25,402 (August 23, 2012) in Docket No. DE 10-188, the Commission stated:

In order to better understand the relationship between electricity savings and other fuel savings, we direct the parties and Staff to determine such ancillary savings of electricity as part of the measurement and evaluation of the CORE programs going forward. We request that the electric utilities file ancillary savings data as well as a description of the reliability and accuracy of the data in the form of a report to be submitted with the 2013-2014 CORE program year filing.

On September 14, 2012, following the utilities' request for an extension, the Commission issued a secretarial letter setting March 29, 2013 as deadline for submission of the report. Enclosed please find a copy of the report on ancillary savings as directed by the Commission. Due to the receipt of late-filed comments, some of the information in the report may be subject to updates. The utilities will file an updated report no later than Friday, April 5, 2013.

Thank you for your assistance with this matter. Please do not hesitate to contact me with any questions.

Very truly yours,

Matthew J. Fossum
Counsel
