**Re: DE 12-262 2013-2014 CORE NH Electric and Gas Energy Efficiency Programs
May 2013 Energy Efficiency Monthly Expense**

Dear Ms. Howland:

Enclosed for filing please find EnergyNorth Natural Gas, Inc.'s monthly report of collections, expenditures, interest, and therm sales associated with the implementation and cost recovery of its energy efficiency programs through May 2013. This report updates the forecasted energy efficiency program expenditures consistent with Liberty Utilities 2011-2012 CORE Electric Energy Efficiency and Gas Energy Efficiency Programs approved by the Commission in Order No. 25,189, dated December 30, 2010, and the DSM Rate per therm approved by the Commission in Order No. 25,435 dated October 30, 2012, in Docket DG 12-265.

Rather than continue with a monthly report based on a May through April reporting period, the Company plans to continue with the April 2013 report up through December 2013 so that the monthly energy efficiency reporting period syncs up with the Company's calendar year energy Efficiency program. The Company is in the process of verifying the data reported in the monthly report for prior months, including the over collection balance, and will reflect any corrections, with notations, in the near future.

This report has been filed via the Commission's Electronic Report Filing System. Thank you for your assistance with this matter. Please do not hesitate to call if you have any questions.

Sincerely,

FOR

ChristiAne G. Mason
