

PUBLIC SERVICE OF NEW HAMPSHIRE
SMART START 2nd QUARTER 2014 - REPORT PREPARED FOR
THE NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

DOCKET NO. DE 12-262

September 3, 2014

I. INTRODUCTION

In its Report and Order No. 23,851 in Docket DE 01-080 dated November 29, 2001, the Commission approved the Pay-As-You-Save™ Energy Efficiency Products Pilot Program (PAYS®)¹. As part of its report, the Commission required PSNH to file:

“...quarterly reports to the parties and staff with regard to program participation and expenditures.”

Additionally, in its Report and Order No. 24,417 in Docket DE 04-052 dated December 30, 2004, the Commission directed “...the Parties, in consultation with Staff, to amend their quarterly reports to include expanded data collection, monitoring and reporting on the issues addressed in this order. The issues include, but are not limited to, the level of participation, the impact of reduced rebate levels on SMART START and CORE Programs, and the impact on utilities’ bad debt that can be attributed to SMART START.”

PSNH is complying with this order by filing this Quarterly Report.

II. PROGRAM PARTICIPATION (2nd Quarter)

- Number of active projects carried-over from previous quarter: twenty four (25)
- Number of new projects with analysis: twenty five (25)
- Number of project completions: nine (9)
- Number of projects rejected by customer: zero (0)
- Number of projects removed due to inactivity: zero (0)
- Number of projects that failed screening: zero (0)
- Number of active projects remaining: forty one (41)

Active projects are identified as projects in various stages of execution (identified as “In-Process” or “Potential”). The stages range from still waiting for signed agreements, to the point where energy efficiency measures have been installed and a payment to the contractor is in process but which has not hit PSNH’s accounting system yet. Projects

¹ As provided for in Order No. 24,417 the program was renamed Smart Start. The Smart Start name is used throughout the remainder of this report.

include exit sign retrofits, indoor lighting retrofits, and street light conversions. It is expected that most will move forward to completion. The following table summarizes the status of all qualifying projects for the 2nd Quarter of 2014.

Summary of Qualified SMART START Projects

Data as end of Q2 2014				
Project Reporting Status	Number	Costs \$	Lifetime kWh Savings	Lifetime Bill Savings \$
Completed 2nd Qtr.	9	\$211,730	4,412,746	\$677,504
In-Process	26	\$247,210	6,668,129	\$959,103
Potential	15	\$59,405	1,454,050	\$228,670
Cumulative 2014 Completions (1st + 2nd Qtrs.)	19	\$564,138	11,407,523	\$1,885,731

III. EXPANDED PROGRAM REPORTING ISSUES

As far as can be determined the reduction in the rebate amount (by 10%) had no effect on the level of participation in the Program for the 2nd Quarter of 2014.

IV. PROGRAM EXPENDITURES

The 2nd Quarter of 2014 SMART START Expenditures totaled \$282,927 and breakdown as follows: PSNH administrative and implementation costs were \$10,471, PSNH shareholder incentive of \$9,995 and contractor payments for SMART START measures totaled \$262,462

V. SMART START DELIVERY CHARGE PAYMENTS

Program Delivery Charge (PDC) payments received for the 2nd Quarter of 2014 totaled \$166,576 which excludes an additional amount collected for Bad Debt of \$8,329. There were no charges against the Bad Debt fund in the 2nd Quarter of 2014.
