**Re: DT 12-337 FairPoint Wire Center Investigation, Report of Technical Session  
Possible Collocators Newly Identified During Technical Session**

Dear Ms. Howland;

During the technical session held in this docket on June 5, 2013, which was attended by Staff and representatives of FairPoint and the CLEC Association of Northern New England, Inc., with segTEL and BayRing in attendance, representatives of FairPoint identified two additional possible collocators at certain of FairPoint's wire centers. The newly identified carriers are Teljet Longhaul, LLC and New Hampshire Optical Systems, Inc., each of which is currently registered with the Commission as a competitive local exchange carrier.

In order to conduct discovery with respect to these newly identified possible collocators, Staff recommends that they be made necessary parties in this docket in accordance with Order No. 25,456 and Order No. 25,514.

Sincerely,

A handwritten signature in cursive script that reads "David K. Wiesner".

David K. Wiesner
