Re: DE 12-354, Revolution Energy LLC
Request for Class II Eligibility for the Photovoltaic Array at Great Bay
Community College, 320 Corporate Drive, Portsmouth, NH Pursuant to RSA
362-F

Dear Mr. Lambert:

On December 11, 2012, Revolution Energy, LLC submitted an application for the certification of the electrical production from the .026 megawatt (MW) Great Bay Community College photovoltaic (PV) array located at 320 Corporate Drive, Portsmouth, NH, for Class II renewable energy certificates (RECs), pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard (RPS) law. Staff has determined the application was complete in the initial filing in accordance with New Hampshire Code of Administrative Rules Puc 2500. The application and all submitted information have been reviewed and staff recommends approval effective December 11, 2012.

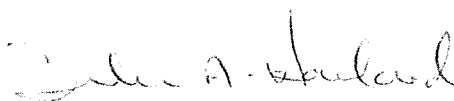

Class II eligibility requires a facility to produce electricity from solar technologies and to have initiated operation after January 1, 2006. The application indicates that the Great Bay Community College array began operation on August 17, 2012. The total nameplate capacity of the PV array at Great Bay Community College is .026 MW; the facility's New England Power Pool (NEPOOL) Generation Information System facility code is NON 33507.

Pursuant to Puc 2502.13, Great Bay Community College is a customer-sited photovoltaic facility; therefore, its output is not recorded in the NEPOOL Market Settlement System and, as a result, must be monitored and verified by an independent monitor. The application states that Thomas Kelly will serve as the facility's independent monitor as required by the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5).

Staff has determined that all necessary information has been provided to demonstrate the Great Bay Community College PV array's eligibility for certification to produce New Hampshire Class II RECs. Based on Staff's recommendation, the Commission hereby certifies the Great Bay Community College PV array as a Class II renewable energy source effective December 11, 2012. The New Hampshire single certification code for the Great Bay Community College PV array is NH-II-12-092.

Attached please find a copy of the notice of this certification provided to the GIS administrator.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Re: DE 12-354, Revolution Energy LLC
Request for Class II Eligibility for the Photovoltaic Array at Great Bay Community
College, 320 Corporate Drive, Portsmouth, NH Pursuant to RSA 362-F
New Hampshire Certification Code NH-II-12-092

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified Revolution Energy LLC's photovoltaic (PV) array at Great Bay Community College, 320 Corporate Drive, Portsmouth, NH as a Class II renewable energy source effective December 11, 2012. Accordingly, the Great Bay Community College PV facility is eligible to be issued New Hampshire Class II renewable energy certificates.

The Great Bay Community College PV array has a total nameplate capacity of .026 megawatts. Thomas Kelly will serve as the facility's independent monitor as required by the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5). The applicant's NEPOOL GIS facility code is NON 33507. The facility's New Hampshire certification code is NH-II-12-092.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland".
