Re: DM 12-367 MSI Utilities, Inc. dba MSI Utilities – Your Energy Partner  
Natural Gas Aggregator Registration Application  
Deficiency Letter

Dear Mr. Warner:

The application for MSI Utilities, Inc. dba MSI Utilities – Your Energy Partner (MSI Utilities) to register as a natural gas aggregator was received on December 26, 2012. An updated application was filed along with a valid certificate of authority on January 28, 2013. Staff of the New Hampshire Public Utilities Commission (Commission) has completed its review of the updated registration application and notes one discrepancy where the applicant cited and addressed an outdated requirement rather than the correct requirement. As filed, the updated application is incomplete and is therefore deficient in its current form.

MSI Utilities should address the following Commission requirements as appropriate in either its cover letter and/or in an update to its registration application:

- Puc 3006.02(a)(6) – A list of CNGSs in New Hampshire for which the applicant intends to provide service.

In order to complete the registration process, MSI Utilities will need to address the issue referenced above. The requirement should be administratively straightforward to correct. A letter with the updated information should be filed in an expedient manner to the docket number assigned to this application (DM 12-367). Until such time that these issues have been resolved, the 60-day review period will be suspended.

If you have any questions related to the registration requirements or to your registration application please refer to the registration instructions and checklist located on the Commission web page at <http://www.puc.nh.gov/Gas-Stream/CNGS-Aggregator%20registration%20application%20instructions%20and%20checklist.pdf> or contact me directly at (603) 271-2434.

Sincerely,

Robert J. Wyatt  
Utility Analyst IV, Commission Staff
