Re: DE 13-058, Loring Solar One LLC's Request for Class II Eligibility for Its
Photovoltaic Array at 598 Augusta Road, Washington, ME, Pursuant to RSA
362-F

Dear Mr. Simon:

On February 25, 2013, Loring Solar One LLC (Loring Solar One) submitted an application seeking certification of the electrical production from the 0.045 megawatt (MW) photovoltaic (PV) array located at 598 Augusta Road, Washington, ME for Class II renewable energy certificates (RECs), pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard (RPS) law. Staff has determined the application was complete in the initial filing in accordance with New Hampshire Code of Administrative Rules Puc 2500. The application and all submitted information have been reviewed and staff recommends approval effective February 25, 2013.

Class II eligibility requires a facility to produce electricity from solar technologies and to have initiated operation after January 01, 2006. The application indicates that the Loring Solar One PV array began operation on February 01, 2013; the total nameplate capacity of the PV array is 0.045 MW; the facility's New England Power Pool (NEPOOL) Generation Information System facility code is NON36123.

Pursuant to Puc 2502.13, the Loring Solar One PV array is a customer-sited photovoltaic facility; therefore, its output is not recorded in the NEPOOL Market Settlement System and, as a result, must be monitored and verified by an independent monitor. The application states that Thomas Kelly will serve as the facility's independent monitor pursuant to the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5).

Staff has determined that all necessary information has been provided to demonstrate the Loring Solar One's PV array's eligibility for certification to produce

New Hampshire Class II RECs. Based on Staff's recommendation, the Commission hereby certifies the Loring Solar One PV array as a Class II renewable energy source effective February 25, 2013. The New Hampshire single certification code for the Loring Solar One PV array is NH-II-13-028.

Attached please find a copy of the notice of this certification provided to the GIS administrator.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Re: DE 13-058, Loring Solar One LLC's Request for Class II Eligibility for Its
Photovoltaic Array at 598 Augusta Road, Washington, ME, Pursuant to RSA 362-F
New Hampshire Certification Code NH-II-13-028

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the photovoltaic (PV) array located at Loring Solar One LLC (Loring Solar One), 598 Augusta Road, Washington, ME as a Class II renewable energy source effective February 25, 2013. Accordingly, the Loring Solar One array is eligible to be issued New Hampshire Class II renewable energy certificates.

The Loring Solar One PV array has a total nameplate capacity of 0.045 megawatts. Thomas Kelly will serve as the facility's independent monitor pursuant to the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5). The applicant's NEPOOL GIS facility code is NON36123. The facility's New Hampshire certification code is NH-II-13-028.

Sincerely,

A handwritten signature in dark ink, appearing to read "Debra A. Howland".
