RE: DT 13-158, Petition of Sovernet Fiber Corp. Petition for Authority to Construct and Maintain Fiber Optic Telecommunications Cable Over and Across the Mascoma River in the City of Lebanon

Dear Ms. Howland,

The enclosed two sheets are intended to replace page number 2 of the schematics filed initially by Sovernet with its petition. The design of the proposed facilities has not been revised. However, pursuant to discussions with Mr. Ladam of the Commission's Telecommunications Division, the revised exhibit calculates cable sag under ice loading for 0.5 rather than 0.25 inches, and a cable that may or may not be attached to the same poles by another carrier in the future has been removed from the profile elevation.

An original, six (6) paper copies, and an electronic version of this filing are provided.

Please feel free to contact me if you need additional information. Otherwise, we respectfully request the Commission grant Sovernet permission for this river crossing.

Respectfully Submitted,

A handwritten signature in black ink that reads 'Lawrence Lackey'.

cc: Michael Ladam
