RE: DT 13-158, Petition of Sovernet Fiber Corp. Petition for Authority to Construct and Maintain Fiber Optic Telecommunications Cable Over and Across the Mascoma River in the City of Lebanon

Dear Ms. Howland,

The enclosed sheets replaces the sag calculation exhibit filed by Sovernet by letter dated October 25, 2013. The design of the proposed facilities has not been revised. However, pursuant to discussions with Mr. Ladam of the Commission's Telecommunications Division, the revised exhibit calculates cable sag for a span length that matches that indicated on the profile elevation.

An original, six (6) paper copies, and an electronic version of this filing are provided.

Please feel free to contact me if you need additional information. Otherwise, we respectfully request the Commission grant Sovernet permission for this river crossing.

Respectfully Submitted,

cc: Michael Ladam
