Re: Revolution Energy REC Aggregation Modification

Dear Ms. Howland,

I am writing today to inform you of our desire to modify Revolution Energy's REC aggregation name in order to better serve the overall renewable energy community here within New Hampshire. While our filing for aggregator status was originally intended to allow Revolution Energy the ability to aggregate RECs for our own renewable energy systems, we have seen a clear need to provide aggregation services to the greater community of renewable energy owners and are henceforth creating a mechanism to do just that.

We would like to request that our REC aggregator status be amended to read "Revolution Energy Aggregation, LLC," as the company name. This is a new entity established for the purpose of assisting renewable energy owners with the aggregation and sale of available RECs. We believe our services will greatly benefit renewable energy owners whose systems are too small on their own to pique the interest of potential buyers.

Thank you for your consideration on this matter.

Sincerely,

Michael Behrmann
Revolution Energy, LLC
