RE: DM 13-309 – Consolidated Edison Solutions, Inc.  
Competitive Electric Supplier Application

Dear Ms. Howland:

I am writing on behalf of Consolidated Edison Solutions, Inc. ("Con Edison Solutions") in response to the November 8, 2013 deficiency letter received in connection with Con Edison Solutions' October 29, 2013 application to renew its registration as a competitive electric power supplier in New Hampshire. The deficiency letter instructed Con Edison Solutions to provide a copy of its residential customer contract pursuant to PUC 2006.01.

In the October 29, 2013 application, we noted that Con Edison Solutions may at times serve residential customers in New Hampshire. However, to clarify this statement, Con Edison Solutions notes that it does not actively market to residential customers in New Hampshire, nor does Con Edison Solutions have any immediate plans to do so. Rather, Con Edison Solutions may possibly from time to time enroll an account served through a residential coded electricity meter, when such account is affiliated with a commercial customer. A possible example would be a dean's residence on a university campus, where all of the university accounts are bundled under a single contract. In such an event, Con Edison Solutions would provide service to such residential meter under our commercial customer contract, a copy of which is included for your review.

Please don't hesitate to contact me should you have questions regarding this matter or if additional information would be helpful.

Very truly yours,

Paul F Mapelli  
Vice President, General Counsel and Secretary

Enclosure
