Re: Application for Certification as REC Eligible Facilities – Revolution Energy
Aggregation
DE 13-347 Roland Goulette DE 13-361 David Govatski
DE 13-349 Edward Solar

Dear Mr. Behrmann:

On December 9, 2013, the Commission received an application from Roland Goulette (Goulette) requesting Commission approval for Class II New Hampshire Renewable Energy Credit (REC) eligibility for his residential photovoltaic array pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law¹. On December 12, 2013 an application for REC eligibility was received from Edward G. Solar (Solar), and on December 30, 2013 an application for REC eligibility was received from David Govatski (Govatski). On January 10, 2014 the Commission received a letter from Revolution Energy Aggregation (REA) confirming that Goulette, Solar, and Govatski intend to participate as part of REA's aggregation of Class II eligible facilities.

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed application. The above-named facilities are customer-sited sources and meet the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the applications Staff recommends that the Commission approve the Goulette, Solar, and Govatski PV arrays as part of REA's Class II eligible facilities effective January 10, 2014, the date the Commission received the information needed to complete their applications.

Since these facilities are customer-sited sources, their output is not recorded in the ISO New England Market Settlement System and, as a result must be monitored and verified by an independent monitor. The application states that Paul Button, Energy Audits Unlimited, will monitor the facilities' output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and

¹ The Commission approved Revolution Energy Aggregation, LLC as an aggregator of RECs on August 07, 2013, DE 13-230.

2505.09. Mr. Button will report these facilities' total output annually to the customers, the Commission and the NEPOOL Generation Information System as part of REA's Class II aggregation pursuant to Puc 2505.09(h)(3). The GIS facility code assigned to REA is NON 15299.

The details for these facilities are listed in the following table:

Commission Assigned Docket #	Facility Owner	Facility Location	Total MW listed in application	Effective Date to Produce RECs	NH Certification Code
DE 13-347	Goulette	Berlin	0.005	01-10-14	NH-II-13-140
DE 13-349	Solar	Dummer	0.00258	01-10-14	NH-II-13-141
DE 13-361	Govatski	Jefferson	0.005	01-10-14	NH-II-14-005

The Commission has determined that the above-named applicants and Revolution Energy Aggregation have provided all the information necessary to demonstrate these facilities' eligibility for REC certification. The Commission hereby certifies these PV arrays as eligible to be aggregated by the Revolution Energy Aggregation for Class II RECs, effective as of January 10, 2014.

Sincerely,

Debra A. Howland

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the Roland Goulette (Goulette), Edward Solar (Solar), and David Govatski (Govatski) photovoltaic (PV) facilities as part of the Revolution Energy Aggregation (REA).

Accordingly, REA is eligible to be issued Class II RECs, effective as of January 10, 2014, for the Goulette, Solar, and Govatski PV arrays. The following table summarizes these new additions to REA, including the New Hampshire Certification Codes. The GIS facility code assigned to Revolution Energy Aggregation is NON 15299.
