Re: Applications for Certification as REC Eligible Facilities:
DE 14-033 John Bourdon
DE 14-034 Dave Sanborn
DE 14-035 Bob LaFrambois

Dear Mr. McNeil:

On February 5, 2014, the Commission received applications from the New Hampshire Electric Cooperative (NHEC) requesting Class II New Hampshire Renewable Energy Certificate (REC) eligibility for the following entities' photovoltaic (PV) arrays pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law:¹ John Bourdon (Bourdon); Dave Sanborn (Sanborn); and, Bob LaFrambois (LaFrambois).

Staff has reviewed these applications and has recommended approval of these PV arrays as eligible for Class II RECs as listed in the following table:

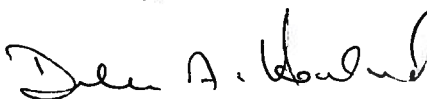

¹ Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

Commission Assigned Docket #	Facility Owner	Facility Location	Equipment Vendor	Installing Electrician	Operation Date ²	Effective Date to Produce RECs	Total MW listed in application (DC Arrays)
DE 14-033	Bourdon	Andover	SunRay Solar	Keith Firman	12-31-13	02-05-14	0.008
DE 14-034	Sanborn	Holderness	PAREI	Larry Mauchly	01-14-14	02-05-14	0.0081
DE 14-035	LaFrambois	Deerfield	ReVision Energy	William Levay	01-17-14	02-05-14	0.00459

Because these facilities are customer-sited sources, the output is not recorded in the New England Power Pool Market Settlement System and, as a result, the output must be monitored and verified by an independent monitor. Your application states that NHEC will monitor the facilities' output as required by N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. The total output from these facilities will be included as part of the NHEC Class II Aggregation's total output reported to the NEPOOL Generation Information System as approved by the Commission on April 9, 2010.

The Commission has determined that NHEC has provided all the information necessary to demonstrate these facilities' eligibility for certification and hereby certifies the above named photovoltaic arrays as eligible for Class II RECs effective as of February 5, 2014.

Sincerely,

Debra A. Howland
Executive Director

² NHEC considers the operation date listed in the table above, and in Appendix E of each application, to be the date on which NHEC inspected each facility and installed a revenue quality meter to record the electricity that will be eligible for Class II RECs. The date listed in each interconnection application pertains to the installation and interconnection of the facility and may be different than the operation date listed in the above table.

SERVICE LIST - EMAIL ADDRESSES - DOCKET RELATED

Pursuant to N.H. Admin Rule Puc 203.11 (a) (1): Serve an electronic copy on each person identified on the service list.
