Concord, NH 03301-2429

Attn: Ms. Debra Howland, Executive Director

Re: Application Renewable energy Source Eligibility

Dear Ms. Howland:

On October 6, 2014, the New Hampshire Public Utilities Commission granted (DE 14-182) interim certification for the Littleton Regional Healthcare's 3.433 megawatt (MW) equivalent, thermal biomass facility as a Class I renewable energy source, effective as of January 15, 2014, through 90 days following the date of adoption of a final ruling, pursuant to N.H. RSA 362-F.

On December 5, 2014, the Commission adopted the Puc 2500 rules. In Part Puc 2505.02(g) of the adopted rules, the Commission holds that thermal facilities certified during the interim period (between January 15, 2015 and December 5, 2014) must submit updated materials that demonstrate compliance, within 90 days of the Ruling's effective date, thus by Thursday, March 5, 2015. The purpose of this letter is to provide such updated materials.

In our previous Application for Interim Certification, in addition to all other applicable requirements, we employed the methodology for measuring useful thermal energy set forth in Puc 2505.02(e)(2). In today's Application for Permanent Certification, we shall instead employ Puc 2506.06 Request for Alternative Method for Measuring Thermal Energy. In Attachment 1, we provide the information that is requested by the Commission for facilities utilizing an Alternative Method, per Puc 2505.06.

Enclosed are two copies of the previous Application for Interim Certification, two copies of this cover letter, and two copies of Attachment 1.

Please let me know if you have any questions or need additional information.

Respectfully,

Wayne G. Fillion, P.E.

President

Enclosure
