Re: RSA 125-O:5, 2016 Compliance Report

Dear Director Howland,

In accordance with RSA 125-O:5, Eversource Energy is required to submit a report to the Public Utilities Commission and the Department of Environmental Services in any year that the company utilizes system benefits charge funds set aside under the provisions of RSA 125-O:5 for energy efficiency projects at facilities owned and operated by the Company. Please let this letter serve as an informational report regarding the balance of funds remaining at year-end 2016.

In 2016, the Company did not utilize these funds to complete energy efficiency projects at its facilities. As approved by the Commission in its secretarial letter dated November 4, 2010 in Docket DE 09-170, if unencumbered energy efficiency funds remain at the end of a program year, the 2% set aside calculation is based on the lesser of: 1) up to two percent of the actual energy efficiency program system benefits charge funds collected in the prior program year based on Eversource's actual delivered kilowatt-hour sales; or 2) the amount needed to result in a \$600,000 year-end balance cap. Since no unencumbered funds remain at the end of 2016, no additional funds were set aside for energy efficiency projects at Eversource's facilities.

As shown in the table below, the beginning balance and ending balance in 2016 was \$43,973.

	<b>2016</b>
Beginning Balance	\$43,973
+ 2% Set Aside for Projects at Eversource's Facilities	\$0
- Cost of Projects at Eversource's Facilities	\$0
- Transfer of Funds to CORE Programs in 2015/2016	\$0
Year End Balance	\$43,973
