RECEIVED 7 DEC 16 AM 11:06

Ms. Howland:

With submission of this letter, Ground Energy Support LLC (GES) requests that the Commission extend the waiver granted on December 10, 2014 as part of DE14-237 to allow GES to continue to provide Independent Monitoring services to individuals to whom we have also sold the equipment used for metering thermal energy.

Because the waiver is due to expire soon (December 10, 2016), GES will commit to providing heat production data to a different Independent Monitor for the months of December 2016 and January 2017 for sites covered under the DE14-237 waiver at no additional cost.

Thank you for your consideration and please let me know if you have any questions or need any additional information.

Respectfully,
