Dear Ms. Lakritz:

On October 7, 2014, the Commission received applications filed by Knollwood Energy of MA, LLC¹ (Knollwood Energy) requesting Class II eligibility for photovoltaic (PV) arrays² and inclusion in the Knollwood Energy aggregation. The applicants include William Wyatt (Wyatt), Erik Travis (Travis), Laura Scheibel (Scheibel), Dale Bellavance (Bellavance), Christopher Betjemann (Betjemann), Michael Thomas (Thomas), Ethan Doubleday-Everett (Doubleday-Everett), and Andrew Gillis (Gillis).

On October 20, 2014, the Commission received one additional application filed by Knollwood requesting Class II eligibility for a PV array and inclusion in the Knollwood Energy aggregation. This application is for the William Coven (Coven) PV array.

The above-named facilities are customer-sited sources and all meet the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the applications, Staff recommends Commission approval for the Wyatt, Travis, Scheibel, Bellavance, Betjemann, Thomas, Doubleday-Everett, and Gillis PV arrays as eligible Class II facilities to be included in the Knollwood Energy aggregation, effective as of October 7, 2014. Further, Staff recommends the Coven array be

certified as a Class II REC eligible facility to be included in the Knollwood Energy aggregation effective as of October 20, 2014.

Because these facilities are customer-sited sources, the output is not recorded in the ISO New England Market Settlement System and, as a result, must be monitored and verified by an independent monitor. The following table lists the independent monitor for each facility, the date the Commission approved the independent monitor, and the docket number for the approval.

Applicant	Independent Monitor (IM)	IM Approval Date	Docket #

Gillis	Paul Button, Energy Audits Unlimited	06-06-10	DE 10-128
Covenor	Paul Button, Energy Audits Unlimited	06-06-10	DE 10-128

The independent monitor's responsibility is to verify the facility's output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. Mr. Button and Mr. Kelly will report the facilities' total output quarterly to the customer and to the NEPOOL Generation Information System and annually to the Commission as part of the Knollwood Energy's Class II aggregation pursuant to Puc 2505.09(h)(3).

Details for these facilities are listed in the following table.
