**Re: Unitil Energy Systems Inc. – Petition for License to Construct and Maintain Electric Lines Over and Across the Hampton River in Hampton, New Hampshire**

Dear Ms. Howland:

Enclosed for filing with the Commission please find the original and six copies of Unitil Energy Systems Inc.'s, Petition for License to Construct and Maintain Electric Lines Over and Across the Hampton River in Hampton, NH, with attached Exhibits. In accordance with the Commission's rules, an electronic filing of the Petition and Exhibits is also being made with the Commission on this date via electronic mail.

In that our New Hampshire Department of Environmental Services (NHDES) wetland dredge and fill permit dictates that every effort be made for construction to take place during frozen conditions, any steps which can be taken at the Commission to expedite the handling of this filing such that work may take place this winter are appreciated.

Should there be any technical questions regarding this filing, they may be directed to Unitil Senior Design Engineer Nate Sherwood, who can be reached at (603) 773-6476.

Your time and consideration is appreciated in advance.

Sincerely,  
TFMoran, Inc.

Nicholas Golon, P.E.
