Re: Public Service Company of New Hampshire d/b/a Eversource Energy – Petition for License to Construct and Maintain Electric Lines Over and Across the Newfound River in the Town of Bristol, New Hampshire

Dear Ms. Howland:

Enclosed for filing with the Commission please find the original and six copies of Public Service Company of New Hampshire d/b/a Eversource Energy's Petition for License to Construct and Maintain Electric Lines Over and Across the Newfound River in the Town of Bristol, New Hampshire, with attached Figures. Pursuant to the Commission's rules, an electronic filing of the enclosed Petition and the Figures is also being made with the Commission on this date.

Eversource respectfully requests that the Commission issue an Order *Nisi* with respect to this water crossing license application. As noted in the Petition, the proposed new crossing is associated with PSNH's construction of a new distribution circuit. The completion of this new circuit line project is pending the issuance of the crossing license requested in this filing. Therefore, we would appreciate any steps which can be taken at the Commission to expedite the handling of this filing.

Should there be any technical questions regarding this filing, they may be directed to Eversource Engineer David M. Still, P.E., who can be reached at 634-2078.
