RE: CRS 15-245: FirstLight Notification of Existing Crossings

Dear Kath:

Pursuant to New Hampshire RSA 371:17-b, segTEL, Inc. d/b/a FirstLight Fiber (FirstLight) has been issued the attached license CR 02-002-16 to cross state lands or public waters at 184 locations.

FirstLight submitted a list of 1,223 crossings in its filing of January 8, 2016. As we have discussed previously, many of these crossings do not appear to qualify for licensing:

- 440 locations appear to be crossings of state-maintained highways. Pursuant to RSA 231:161 such crossings are authorized by the New Hampshire Commissioner of Transportation rather than by the Public Utilities Commission;
- 556 locations appear to be crossings of roadways maintained by a municipality. Pursuant to RSA 231:161 such crossings are authorized by the respective municipalities rather than by the Public Utilities Commission;
- 43 locations appear to be crossings in which the fiber or cable is not attached to poles, as required by RSA 371:17-b.

If FirstLight is able to supplement the January 8, 2016 filing with additional information that clarifies the questions of fact above, specifically whether particular crossings are attached to poles, we may be able to determine that additional crossings in the original list may be licensed.

Please feel free to contact me with any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Ladam', written over a horizontal line.
