Referencing Docket No. DG 15-289 Liberty Utilities

Dear Director Howland:

I am writing to ask the Commission to deny the motions to stay proceedings in Dockets DG 15-155 and DG 15-289. I urge the Commission to complete the process with the proposals already submitted, and which have been through the hearing process. Any new proposal from Liberty Utilities, with or without a negotiated settlement with Valley Green Natural Gas LLC, should be subject to a new process, including a full hearing so the public is properly informed and can provide comment.

I urge the Commission to turn down the motions to stay from Valley Green and Liberty, and reject the existing proposals submitted in 2015 for a gas franchise for the Hanover - Lebanon area.

Thank you.
