

DG 15-155/ DG 15-277

Dear ~~MS~~ HOLLAND

This January was the hottest on record according to NASA scientists. These rising temperatures harm public health, wildlife, small businesses, and our tourist economy. One surprising victim of climate change is New Hampshire's maple forest. The maple industry brings about \$200 million into our economy annually and it could see significant cuts if these temperatures continue to climb.

EPA's Clean Power Plan reduces carbon pollution from power plants and is the best protection for our sugar shacks. Please support the Clean Power Plan and protect New Hampshire's maple syrup industry.

~~your concern~~
GIVEN THE SERIOUS
DISRUPTION WE FACE
FROM CLIMATE CHANGE
WE SHOULD BE REDUCING
OUR DEPENDENCE ON FOSSIL FUELS
