

Mr. Swain has worked in the Natural Gas Distribution industry for the past 36 years. He is Liberty Utilities' President of New Hampshire Operations which include the Energy North gas operations and Granite State Electric. Prior to overseeing operations in New Hampshire, Mr. Swain was Liberty Utilities' President of the Mid-States operations which included Iowa, Illinois and Missouri. Before joining Liberty Utilities he was the Division Operations Manager at Atmos Energy where he provided the direction and oversight of 12 operations in Kentucky, Tennessee, Illinois and Missouri. He has been involved in many facets of the industry with a passion for improving and enhancing the safety and reliability of Natural Gas Distribution systems. He has aided in the development of many Pipeline Safety and Compliance programs that have been initiated across the country. He presently holds a certification from the National Association of Corrosion Engineers as Cathodic Protection Specialist.
