Subject: Comment on NH PUC DE 16-241

So you are being asked to support forcibly taking NH private property, conservation land, and municipal land by eminent domain for a gas pipeline (contrary to current NH law) and then bill those same private property owners, conservation groups, and municipalities for the pipeline cost in their electricity bill?

I cant think of a better definition of "outrageous."

Deny this proposal as a violation of the public trust and charitable trust doctrines among other principles too numerous to mention.

Robert T. Ford, Esq.
