# Mindi Messmer State Representative District 24 - Rockingham County

Recipient: Public Utilities Commission

Letter: Greetings,

Demand a public hearing on the EverSource purchase of our Water!

# Comments

Name	Location	Date	Comment
Mindi Messmer	Rye, NH	2017-08-12	EverSource is set to take over our water now too! They already own our electric and gas. Sign by Monday to compel PUC to have a public hearing. Protect our water!
Michael Edgar	Hampton, NH	2017-08-12	Let the public have a hearing and find out more about Eversource's reasons for this proposed purchase. Is this the best way for communities to be provided services, especially considering the potential risks are water supply is being subjected to?
William Sullivan	Hampton, NH	2017-08-12	Don't trust corporate America.
Patricia Martin	Rindge, NH	2017-08-12	Citizens deserve a public hearing. There was just a case of a town served by a Liberty Utilities water distribution company where the town bought the company back from them because they were so unhappy with rates, service and quality.
Sean Lewis	Salem, NH	2017-08-13	Corporate monopolies over public needs will always lead to disaster.
Paula Iasella	Wilton, NH	2017-08-13	I KNEW bad things would come when PSNH was acquired by EVERSOURCE! My bills have gone up substantially, Northern Pass, now this. These monopolies exhaust our resources and exhaust the citizens fighting their trampling of the people for profit.
Pam Clark	Westmoreland, Canada	2017-08-13	Enough power to the utility companies. Not our water!
Patricia Rodrigues	Westmoreland, NH	2017-08-13	Water is life, and my well water is in danger now as well - AND my situation did not get the Public Hearings it deserved either - see. <a href="http://www.thepetitionsite.com/takeaction/487/325/575/" rel="nofollow">http://www.thepetitionsite.com/takeaction/487/325/575/</a>
Nora Traviss	Keene, NH	2017-08-13	A public hearing is necessary as part of the democratic process and because water is a public good for all. Clean water is critical for all species' health and particularly in New Hampshire - a state that relies on the tourist economy and where over half our residents have private wells.
John Balch	Wilton, NH	2017-08-13	Eversource is buying Aquarion Water. The Texas-based company that currently owns NH, MA, CT electrical service, that is trying to force Northern Pass on us, is now purchasing the company that brings water to 651,000 New England Customers.They are winning the game of Monopoly.
Carl Rod	Oklahoma City, OK	2017-08-13	Water is essential to life. No individual or corporation has the "right" to monopolize this resource. Too many times, corporate greed has led to draining of the aquifers, leaving individuals and whole communities without water or resources to find new safe sources. This was the case in Coos County, where I lived. Stop this assault on water in Rockingham County. Place real controls on this precious resource.

Name	Location	Date	Comment
James Clark	Westmoreland, NH	2017-08-13	I'm signing because it is the right thing to do.
Pamela Shuel-Sargent	Rindge, NH	2017-08-13	The energy companies greed is not in the interest of the ratepayers. They must be stopped.
Joan DeYoreo	Newmarket, NH	2017-08-13	No one company should be in control of all these resources that everyone needs. There most definitely be a public hearing about this planned purchase.
Paul Koutroubas	Keene, NH	2017-08-13	I am signing because I do not trust a resource and anything corporate America or does today and nobody owns I should have a right to say they are in water
Douglas Whitbeck	Mason, NH	2017-08-13	Corporations are gaining more and more control over our food, our air, our water. Should they have so much control over "the commons"? That at least deserves debate.
Anne diCicco	Hollis, NH	2017-08-13	Water Is Life.
Sam Winebaum	Rye, NH	2017-08-13	Before approving the PUC needs to have a full evaluation of Aquarion's and if approved Eversource's plans to safeguard and improve water quality as well as investment plan to update outdated infrastructure while maintaining reasonable pricing.
LAURENE ALLEN	Merrimack, NH	2017-08-13	Unacceptable!!
Rep. Dan Hynes	Merrimack, NH	2017-08-13	Eversource is a terrible company. The charge deposits and cut off electricity without notice. I imagine they would do the same bad things to people if they were in charge of water.
Bonnie Wright	Salem, NH	2017-08-13	Too much! This monopolization of our resources has gone too far. Let the people speak!
Nancy VanScoy	Salem, NH	2017-08-13	I am a water protector.
b c	Beverly Hills, CA	2017-08-14	Eversource are nothing but greedy bastards. They already rob us with our electric bills and need to be stopped
William King	Washington, PA	2017-08-14	All situations where monopolies of public services are involved must be presented to the public.
Regina Barnes	North Hampton, NH	2017-08-14	I am a Selectman in hampton, one of the town's serviced by Aquarion Water Company. It could be argued that Ever Sources acquisition of Aquarion could provide additional capital for local water infrastructure projects. EverSource should have conducted due diligence procedures prior to determining Aquarion would be a beneficial acquisition; however, it would be dutiful of the existing customers of Aquarion to communicate any immediate and/or future concerns of the quality and maintenance of the current Aquarion product.
Alayna Davis	Dover, NH	2017-08-14	Our water is our most precious resource and it is already being threatened by contaminants in several areas in NH. We need better transparency about protecting our water supplies and not the corporate industry.

Name	Location	Date	Comment
Lisa-Jo Warren	Gorham, ME	2017-08-14	There must be a public hearing.
David Vincelette	Hanover, NH	2017-08-14	Our Government is abandoning the Public Trust.
anna Granovska	Hanover, NH	2017-08-14	Agree.
Risa Swanson	Temple, NH	2017-08-14	Water is a public resource, not for private profit.
Elizabeth Sweet	Portsmouth, NH	2017-08-14	I would like to have more information about this merger before it happens as I do not have a choice of who to buy gas, electricity and water from.
Marcia Blackman	Concord, NH	2017-08-14	Wrong on every level
Tyler McFarland	Rye, NH	2017-08-14	Water privatization is a crime.
Richard Husband	Litchfield, NH	2017-08-14	It is far from clear that this would be in the public interest.
Cristina Brisotti	Durham, NH	2017-08-14	Monopolies don't serve the people.
Lee Bartlett	Epsom, NH	2017-08-14	I'm signing because this is a conglomorate. They have no business with our water and not having a hearing. Call Sununu and your representative.
Julieanne Coleman	Barrington, NH	2017-08-14	water is not a commodity!!!!
Mary Doane	Keene, NH	2017-08-14	I believe serious consideration needs to be given to any decision involving the public water supply. This is too important to hand over to a for-profit company.
Eileen Ehlers	Hooksett, NH	2017-08-14	take the deal into the sunshine
James Schuler	Weare, NH	2017-08-14	A water polluter should not own the water. Water should not a profit be made.
Lisa Buitenhuys Buitenhuys	Bristol, NH	2017-08-15	I stand with Bonnie!
Mary Ewell	Spofford, NH	2017-08-15	Government needs to work for the people and therefore needs to hear from the people.
