Subject: opposed to increase

Hi, I Live in Londonderry , and i am very opposed to the temp increase of 16% and especially to the permanent increase rate of 21.24 % The average cost of living raise is 2-3% a year , the average but not all americans receive if they are lucky 2% a yr raise . Yet this giant utility company is asking for 21 % -7 x what the cost of living is . I believe you are the utilities commission so not much chance of you looking at this from the public's point of vue . I live alone and work 2 jobs just to pay my bills ,one of which is pennichuck , now i have to pay more so they are in compliance with the safe drinking act ?????? when is someone going to stand up to these companies and say enough is enough ,your profit margin is already better than most of the john q public !!! How dare they compare a homeowner painting his house to them replacing Pennichucks infrastructure , who gives us a 21% helping hand to paint our house ? I know i am not a very educated person , but i work my ass off to have the basics , utilities, cable , cell phone , etc. but i am not so stupid to not see that we are getting raped every single day by comcast, verizon , psnh , and pennichuck ! you could just as easily say to pennichuck, no increase sorry you need to spend some of huge profits you make each year and fix YOUR infrastructure yourself

Sincerely, Joanne Leone
