**Subject:** Docket # DW17-128

Please perform your due diligence looking at this price increase request by Pennichuck. We in the neighborhood have been paying more for water than almost all other Exeter residents outside our neighborhood. Also, the service has been less than satisfactory with Pennichuck's generator not working and leaving us without water during one power outage. It seems that they are taking advantage of the monopoly they have on water delivery (use their service or drill a well!) in the neighborhood and we all hope you will not add to the burden they already incur on the backs for those of us who have been paying their greater-than-going rates for (in our case) 12 years or more.

Regards,

James Gordon
