Re: Docket No. DW 17-165
Abenaki Water Company – Rosebrook
Petition for Change in Rates

Dear Ms. Howland:

On January 26, 2018 the AWC – Rosebrook filed a letter requesting that the case be put on hold pending submission of the ROE testimony in a separate docket. On February 23, 2018 Abenaki Water Company (along with Hampstead Area Water Company and Lakes Region Water Company) filed the ROE testimony and requested that the Commission issue an order of notice and setup a prehearing conference and technical session. As such, AWC – Rosebrook respectfully requests that its case be restarted. If necessary, please issue an order of notice and setup a second prehearing conference and technical session, preferably following a prehearing conference and technical session in the ROE docket.

As a reminder, AWC - Rosebrook's net operating loss amounted to \$15,985 for the twelve months ended September 30, 2017 (the test year). Recently, AWC – Rosebrook replaced a pump at an estimated cost of \$30,000. AWC – Rosebrook anticipates including the pump replacement costs in its proposed step increase.
