Subject: Granite Bridge

Message: Dear Sen. Kahn,

I am writing to urge you to stand AGAINST the Granite Bridge project! New Hampshire can and should be a leader for all of New England and the country at large in pursuing renewable energy. We can become a positive example and role model for others. Let's not lose this opportunity. More and more people are beginning to realize we have only a small window of time to get ahead of the very real issue of climate change and negative environmental impact.

I urge you to oppose this project while continuing to seek alternative energy which benefits all form of life (human, animal, environmental).

Thank you for your time and consideration,
Terri O'Rorke
