Utilities Commission,

Dear Public Utilities Commissioners,

I want to urge you to deny any permits to Liberty Utilities for the construction of the Granite Bridge pipeline and tank.

Liberty Utilities has a horrible track record with public safety. They've been fined tens of thousands of dollars for safety and maintenance violations in the past and caused a "6 Alarm Emergency" in the city of Keene that cost \$50,000.

I grew up in Keene, and seeing this, I know it can happen anywhere, we cannot depend on Liberty Utilities to be vigilant based on their history.

We need you to stop this project to protect our health and wellbeing. We want renewable energy which is available. I am also writing to Sen. Shaheen and Hassan, and Annie Kuster for their support.

Thank You,
Maureen Fowler
