

TERMS AND CONDITIONS, cont.

2. Stop-to-End
 - a. The Stop-to-End is from the limits of the highway to the premises served. The property owner is responsible for the **installation and** ownership of the stop-to-end portion of the service pipe. The ownership includes all underground pipe, the portion of the pipe before the meter, service valve, and copperhorn.
 - b. The service pipe may be installed by the Company at the Customer's expense or, at the Customer's option, this portion of the service pipe may be installed by the Customer subject to the Company's "~~Pennichuck Water Works, Inc.,~~ Technical Specifications for Main, Hydrant, and Service Installations (~~Nashua, Merrimack, N.H.~~)" and "**Standard Detail**". For services installed by the Company, at the time application for service is made a deposit will be required based upon the estimated cost of construction. For services installed by the Customer at the time of application, a service connection fee will be charged by the Company, as set forth in this tariff's rate schedules, to recover the costs of engineering, administration and inspection.
 - c. **For Stop-to-End service installations where private fire protection service is being provided to a single-family residence, the Customer shall install, at the Customer's expense, two services into the foundation of the building. Each service shall be provided with a separate curb stop. One service shall be sized to provide the domestic service to the residence and one service shall be sized to provide the required fire flow for the sprinkler system to the residence. These services shall be installed in accordance with the Company's "Technical Specifications for Main, Hydrant, and Service Installations" and "Standard Details". The service providing the fire flows will be unmetered. The service providing the fire flows will have a testable double check backflow preventer installed on the service inside the building foundation in accordance with the Company's Technical Specifications.**
3. The utility reserves the right to refuse water service to any location until such time as the utility shall decide that there is sufficient progress to show that the building will be completed and occupied.
4. On future installations, or re-installations, of service lines, only one customer will be supplied through one service pipe. Where more than one customer is now supplied through one service pipe and under control of one curb-cock, any violation of the rules of the Company by either or any of the customers so supplied shall be deemed a violation by all. The Company may take such action as could be taken against a single customer, except that such action shall not be taken until the innocent customer who is not in violation of the Company's rules has been given a reasonable opportunity to attach his pipe to a separately controlled service connection.

~~C. Installation, Ownership and Maintenance Commercial/Industrial Services Larger Than 3 Inch
— Size Meters~~

- ~~1. Main to Stop: —~~

- a. ~~The service pipe from the main to the shut off valve (the "Main to Stop"), shall be installed by the customer or the Company at the customer's expense. Thereafter, the main to stop shall be owned and maintained by the utility.~~

~~2. Stop to End:~~

- a. ~~From the shut off valve to the premises served (the "Stop to End"): The service pipe may be installed by the Company at the Customer's expense or, at the Customer's option, this portion of the service pipe may be installed by the Customer subject to the Company's "Pennichuck Water Works, Inc., Technical Specifications for Main, Hydrant and Service Installations(Nashua, Merrimack, N.H.)". For services installed by the Company, at the time application for service is made a deposit will be required based upon the estimated cost of construction. For services installed by the Customer at the time of application, a service connection fee will be charged by the Company, as set forth in this tariff's rate schedules to recover the costs of engineering, administration and inspection.~~

RATE SCHEDULE
GENERAL SERVICE - METERED
SCHEDULE G-M
STEP INCREASE

Availability:

The rate is available for metered water service in the franchised area subject to the terms and conditions of this tariff.

Character of Service:

Nashua Core System: Water is fully treated, filtered, and purified and is transmitted by gravity and pumps to the individual service pipes.

Community Water Systems: Water is ground water from a well site. Water quality meets or exceeds all federal and state standards for drinking water. Outdoor use of water may be restricted during dry summer periods.

Rate:

A minimum customer charge shall be made for each customer to whom service is rendered under this tariff, based on the meter size shown below:

<u>Meter Size</u>	<u>Monthly Customer Charge</u>
5/8"	\$ 22.58
3/4"	32.50
1"	52.35
1" meter with private residential fire service ¹	29.09
1 1/2"	102.02
2"	167.02
3"	306.28
4"	505.15
6"	1,002.35
8"	1,559.15
10"	2,295.22

1. This rate is grandfathered to single-family residential homes that have a single service with a single curb stop and a 1" meter to allow the passage of fire flows for a single-family residential sprinkler system. The rate for this class will be the tariffed rate for a 5/8" meter and a private 1-1/2" fire service. This rate is grandfathered to homes that had this type of service prior to 12/31/2018.

Volumetric Rate:

In addition to the standard customer charge, the monthly volumetric charge based on usage will be as follows:

Volumetric Charge: \$ 3.66 per 100 cu. ft.

Terms of Payment:

Bills under this rate are net; will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on water bill.

RATE SCHEDULES
PRIVATE FIRE PROTECTION SERVICE
SCHEDULE FP-NM
STEP INCREASE

Availability:

This rate is available for private fire protection and sprinkler service subject to the Private Fire Protection Regulations of paragraph ~~3113~~ of this tariff.

Character of Service:

The Company will make every effort to maintain normal pressures at all times on the distribution system, but shall not be held liable for the failure of either the supply or distribution division of its system to adequately furnish its normal quantity of water when such failure is due to the elements, natural causes, breaks, leaks, unusual or concurrent droughts, or waste or unlawful use of water.

Rate:

The charge shall be determined by the size of the **fire service tap to the pipe** entering the property as follows:

Monthly Customer Charge

1 ½" connections	\$ 6.51
2" connections	15.50
3" connections	26.02
4" or smaller connections	\$ 62.03
6" connections	104.08
8" or larger connections	153.25

Terms of Payment:

Bills under this rate are net; will be rendered monthly and are due and payable at the office of the Company on the due date as stated on water bill.
