RATE SCHEDULE
GENERAL SERVICE - METERED
SCHEDULE G-M

Availability:

The rate is available for metered water service in the franchised area subject to the terms and conditions of this tariff.

Character of Service:

Service shall consist of the production, treatment, and distribution of water for all residential, commercial and industrial requirements of customers whose premises abut any public street, road or way in which the Company has mains; provided, however, that such service shall only be rendered pursuant to the Terms and Conditions prescribed in other sections of this Tariff and the Rules of New Hampshire Public Utilities Commission for Water Service.

Rate:

A minimum customer charge shall be made for each customer to whom service is rendered under this tariff, based on the meter size shown below:

<u>Meter Size</u>	<u>Monthly Customer Charge</u>
5/8"	\$ 17.19
3/4"	36.57
1"	51.76
1" meter with private residential fire service¹	25.25
1 1/2"	112.68
2"	167.18
3"	354.70
4"	556.89
6"	1,113.75
8" and up	1,391.02

1. This rate is grandfathered to single-family residential homes that have a single service with a single curb stop and a 1" meter to allow the passage of fire flows for a single-family residential sprinkler system. The rate for this class will be the tarified rate for a 5/8" meter and a private 1-1/2" fire service. This rate is grandfathered to homes that had this type of service on or before 12/31/2018.

Volumetric Rate:

In addition to the standard customer charge, the monthly volumetric charge based on usage will be as follows:

Volumetric Charge: \$ 6.24 per 100 cu. ft.

For the Towns of Barnstead, Conway, and Middleton:

A volumetric charge shall be made for each customer for a minimum of 4 CCF of usage, where the actual usage is between 0 CCF and 4 CCF. A volumetric charge for usage above 4 CCF will also be made.

Terms of Payment:

Bills under this rate are net, will be rendered monthly, and are due and payable at the office of the Company on the due date as stated on water bill.

TERMS AND CONDITIONS, cont.

- 2. Stop-to-End ~~From the limits of the highway to the premises served (the "Stop to End"):~~
 - a. The Stop-to-End is from the limits of the highway to the premises served. The property owner is responsible for the installation and ownership of the stop-to-end portion of the service pipe. The ownership includes all underground pipe, the portion of the pipe before the meter, service valve, and copperhorn.
 - b. The service pipe may be installed by the Company at the Customer's expense or, at the Customer's option, this portion of the service pipe may be installed by the Customer subject to the Company's "Pennichuck East Utility, Inc. Technical Specifications for Main, Hydrant, and Service Installations (Nashua, Merrimack, N.H.)" and "Standard Detail". For services installed by the Company, at the time application for service is made a deposit will be required based upon the estimated cost of construction. For services installed by the Customer, at the time of application a service connection fee will be charged by the Company, as set forth in Paragraph B on Page 46 to recover the costs of engineering, administration and inspection.
 - c. For Stop-to-End service installations where private fire protection service is being provided to a single-family residence, the Customer shall install, at the Customer's expense, two services into the foundation of the building. Each service shall be provided with a separate curb stop. One service shall be sized to provide the domestic service to the residence and one service shall be sized to provide the required fire flow for the sprinkler system to the residence. These services shall be installed in accordance with the Company's "Technical Specifications for Main, Hydrant, and Service Installations" and "Standard Details". The service providing the fire flows will be unmetered. The service providing the fire flows will have a testable double check backflow preventer installed on the service inside the building foundation in accordance with the Company's Technical Specifications.
- 3. The utility reserves the right to refuse water service to any location until such time as the utility shall decide that there is sufficient progress to show that the building will be completed and occupied.
