---

As a NH Senior and Eversource residential ratepayer I am writing to oppose the proposed Eversource rate hikes in this tough time for all in 2020. They are indeed shrewd inserting these requests in a time of health chaos and divisive election politics. Additionally egregious are the allowances to seek future changes without review by the public or PUC and their plans to penalize those who use less power through conservation or non -Eversource means. Please hold these folks accountable as they try to pay for their previous failed plans on the backs of already stressed seniors and NH Ratepayers as a whole. Richard Kane Dover NH
