Subject: Eversource rate increase

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

We own a farm in Henniker My brother spent several years installing solar panels doing the majority of the work by himself. Our latest bill showed a supply charge of \$10.32 and a delivery charge of \$225.67 This is ridiculous. While we are saving on our electricity the delivery charge keeps going up. Please don't let them raise rates.
