The Commission also approved an increase in the Company's Default Energy Service Rate DE effective February 1, 2022 in its Order No. 26,557 in Docket No. DE 21-077. Revised tariff pages were filed with the Commission in compliance with this Order December 28th, 2021.

Supplemental Information on the Filing

The enclosed “Summary of Rates” reports summarize all the rates and charges in the Company’s tariff by month, rate class and rate component. In addition, we have enclosed a schedule of “Typical Bill Comparisons” based on the rates in effect on January 1, 2022 and the new rates. The monthly bill amount (including default energy service) for a residential customer served under Rate R and using 600 kilowatt-hours, previously \$124.92 , will increase to \$133.37 on February 1, 2022, an increase of \$8.45 or 6.8%.

When the new rates are compared to the rates in effect on February 1, 2021 (a similar period), the monthly bill amount for the same residential customer will increase from \$115.45 to \$133.37 on February 1, 2022, an increase of \$17.92 or 15.5%.

In its Order No. 26,569 in Docket No. DE 21-117 (Order Approving Adjustment to Stranded Cost Recovery Charge), the Commission also directed the Company to file its calculations and allocations (in working Excel format) pursuant to N.H. Admin. R., PART Puc 1603. These are also included in this filing as updated Attachment ELM-11.

Please let us know if there are any questions concerning this filing.

Very truly yours,

Jennifer Ullram
