**Re: Docket No. DE 19-057
Public Service Company of New Hampshire d/b/a Eversource Energy
Notice of Implementation for New Start Program**

Dear Chair Goldner:

On June 1, 2021, the New Hampshire Public Utilities Commission (the “Commission”) approved and adopted the New Start Program Design Report (the “New Start Report”), which had been filed by Public Service Company of New Hampshire d/b/a Eversource Energy (the “Company”) on April 15, 2021. The New Start Report was the result of a stakeholder group process and included a list of planned reporting dates for 2022 with a Quarter 1 reporting date of April 30, 2022. Subsequently, the New Start Program was implemented on March 28, 2022 (i.e., just three days before the close of Quarter 1). As a result, the Company does not yet have any data to report on the New Start Program metrics.

The Company therefore provides this letter in lieu of a full report to confirm that the New Start Program has been implemented. The Company will provide a full report for Quarter 2 according to the quarterly filing schedule set forth in the New Start Report, consistent with the New Start Program recommendation to begin reporting in the quarter following implementation of the program.

Please contact me if you have any questions.

Sincerely,

Jessica Buno Ralston
