

**THE STATE OF NEW HAMPSHIRE  
BEFORE THE  
PUBLIC UTILITIES COMMISSION**

**PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE  
D/B/A EVERSOURCE ENERGY**

Docket No. DE 19-082

**PETITION FOR ADJUSTMENT TO THE ENERGY SERVICE RATE FOR  
EFFECT ON AUGUST 1, 2019**

Pursuant to Puc 202.01(a) and Puc 203.06, Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource” or “the Company”) hereby petitions the New Hampshire Public Utilities Commission (“Commission”) to approve an adjustment to its default Energy Service (“ES”) rate for effect on August 1, 2019. In support of its Petition, Eversource says the following:

1. Historically, customers taking ES from Eversource were billed an ES rate reflecting Eversource’s actual, prudent and reasonable costs of providing power from its generating assets and supplemental market purchases, as approved by the Commission. On June 10, 2015, and following extensive negotiations, Eversource and numerous other parties filed the 2015 PSNH Restructuring and Rate Stabilization Agreement (the “2015 Agreement”), which was approved by the Commission along with a related litigation settlement in Order No. 25,920 (July 1, 2016), and which called for Eversource to transition to a new means of providing ES.

2. Consistent with the 2015 Agreement, on June 29, 2017 in Docket No. DE 17-113 Eversource sought Commission approval of a proposal for procuring and providing ES to customers on a competitive basis, rather than through its traditional method. Following discussions among parties to that docket, a Settlement Agreement was reached which set forth the method of and timing for Eversource’s transition to competitively procured ES following the sale of its thermal generating assets. That Settlement Agreement was

approved by Order No. 26,092 (December 29, 2017) and the sale of Eversource's thermal generating assets occurred on January 10, 2018.

3. Pursuant to the settlement in Docket No. DE 17-113, following the sale of the thermal assets Eversource issued a Request for Proposals ("RFP") on January 12, 2018 seeking suppliers for its competitively procured ES. Eversource has procured and provided ES through the same method since that time. By this petition, Eversource now seeks Commission approval of the outcome of its next solicitation and the resulting retail rates for ES for the period of August 1, 2019 through January 31, 2020.

4. Enclosed with this Petition are the pre-filed testimony, attachments and exhibits of Frederick B. White explaining the RFP process used by Eversource and the results of the RFP, as well as how the RFP conformed with the settlement and order in Docket No. DE 17-113, as well as with Order No. 26,104. Additionally, enclosed with this Petition are the pre-filed testimony, attachments and exhibits of Erica L. Menard describing the Company's proposed rates for its Large and Small customer groups and the calculations underlying those proposed rates. A hearing is scheduled for June 10, 2019 to review this submission and Eversource requests that the Commission issue an order as soon as possible thereafter, and preferably by Thursday, June 13, 2019.

5. Additionally, Eversource has included with this submission information pertaining to the calculation of the "adjusted energy rate," as that term is defined in RSA 362-H:1, I, for any purchases of energy from "eligible facilities," as defined in RSA 362-H:1, V, made by Eversource pursuant to RSA 362-H:2. Eversource requests that the Commission confirm the calculations provided by Eversource.

6. RSA 362-H:2, I required Eversource to solicit proposals from "eligible facilities" prior to the solicitations of its default service supply that is the subject of this proceeding. Eversource complied with that requirement. However, to date no agreements exist between Eversource or any of the RSA 362-H "eligible facilities." The Federal Energy Regulatory Commission has not yet ruled in its Docket No. EL 19-10 on the

constitutionality of the purchase requirement set forth in RSA Chapter 362-H. Accordingly, the situation regarding implementation of RSA Chapter 362-H remains the same as that described by the Commission in Order Nos. 26,208 (January 11, 2019) and 26,224 (March 6, 2019). Further, the Commission's decisions in those orders are the subject of an appeal filed by Springfield Power, LLC, DG Whitefield, LLC, Bridgewater Power Company, L.P., Pinetree Power Tamworth, LLC, and Pinetree Power, LLC, with the New Hampshire Supreme Court (docketed as Case No. 2019-0195), and which was accepted by the Court on May 31, 2019. As a result of this continuing stalemate, there are no "eligible facility agreements" available for filing with the Commission under RSA 362-H:2, III and no "such eligible facility agreements" for the Commission to review under RSA 362-H:2, IV.

7. Consistent with the procedures in Puc 201.06 and Puc 201.07, Eversource requests that certain material, which has been filed confidentially, remain confidential. Specifically, Eversource seeks confidential treatment of the redacted portions of: Exhibits FBW-2, FBW-3, FBW-4, FBW-5, FBW-6, FBW-7, and ELM-1. Additionally, Eversource seeks confidential treatment of any discovery relating to the confidential information identified in these exhibits, consistent with Puc 201.06(a)(15).

**WHEREFORE**, Eversource respectfully requests that the Commission issue a final order as soon as possible within 5 business days, containing the following:

1. A finding that Eversource followed the solicitation process approved by the Commission, and that Eversource's analysis of bids and selection of suppliers was reasonable and appropriate;
2. A finding that the proposed retail rates are appropriately calculated and consistent with Commission precedent;
3. A finding that the proposed retail rates are just and reasonable and consistent with the public interest, subject to the ongoing obligations of Eversource to act prudently, according to law and in conformity with Commission orders;
4. Approval of the tariff changes necessary to incorporate the new rates, effective for service rendered on and after August 1, 2019;
5. Confirmation of the "adjusted energy rate" calculation; and

6. Approval of Eversource's request for confidential treatment of the designated confidential material pursuant to Puc 201.06 and Puc 201.07.

Respectfully submitted this 6th day of June, 2019.
