**PUBLIC UTILITIES COMMISSION**

Public Service Company of New Hampshire d/b/a Eversource Energy

**DOCKET NO. DE 19-104**  
CLEAN INNOVATION COMMUNITY SOLAR PILOT PROPOSAL

Petition for Intervention

Pursuant to the Order issued on June 14, 2019, by the New Hampshire Public Utilities Commission (the “Commission”) in the above-captioned docket, N.H. Admin. Rules Puc 203.17, and in accordance with the standards of RSA 541-A: 32, Clean Energy New Hampshire (“CENH”) hereby petitions for leave to intervene in this proceeding. In support of its Petition, CENH states the following:

1. CENH is a statewide nonprofit organization, which educates and advocates for sustainable energy in New Hampshire. It has residential, business, and municipal members across the state of New Hampshire. Its mission is to strengthen New Hampshire’s economy and conserve natural resources by promoting a transition to clean, efficient, and renewable energy.

2. CENH, under its previous name the NH Sustainable Energy Association, was an intervener in docket No. DE 16-576 Development of New Alternative Net Metering Tariffs and/or Other Regulatory Mechanisms and Tariffs for Customer-Generators, and order 26,029 issued in this docket required the proposed pilot which is the subject of docket No. DE 19-104.

3. Moreover, CENH has a strong interest in the following subject areas, all of which could be directly or indirectly impacted by the decisions made in this proceeding: net metering and group net metering tariffs, programs, and pilots; low-moderate income community solar projects; interconnection; and the NH Renewable Portfolio Standard and Renewable Energy Certificates.

4. The rights, duties, privileges, immunities and other substantial interests of CENH and its members will be affected by the decisions made in this proceeding. Additionally, those decisions will impact the core issues for which CENH was created to advocate.

5. CENH has participated in many proceedings before the Commission in the past on behalf of its members and clean energy practices and regulation in New Hampshire, and its participation in the proceeding will be in the interest of justice and will not impair the orderly and prompt conduct of this proceeding, nor will it delay the proceedings.

6. Clean Energy New Hampshire respectfully requests that it be granted full intervenor status in this proceeding.

Dated at Concord, New Hampshire, this 3<sup>rd</sup> day of July, 2019.
