

**Public Service of New Hampshire d/b/a Eversource Energy**  
**Docket No. DE 19-106**

**Date Request Received: 07/19/2019**

**Date of Response: 07/23/2019**

**Request No. RR 1-001**

**Page 1 of 1**

**Request from: New Hampshire Public Utilities Commission Staff**

**Witness: Erica L. Menard**

---

**Request:**

Exhibit 4 - With reference to the Commercial & Industrial Demand Response Initiative, are the energy savings projected to be achieved in that initiative included in the present ISO-NE CELT forecast?

**Response:**

With reference to the Commercial & Industrial Demand Response Initiative, the peak demand reductions projected to be achieved in that initiative would **not** be included in the present ISO-NE CELT forecast. The Demand Response Initiative is a utility administered retail demand response initiative whose savings have not been bid into the ISO's wholesale market by the Company. Over time, peak load reductions from this Initiative will impact the ISO-NE CELT forecast to the extent that the reductions from the Initiative are picked up in the ISO's regression based forecasting methodology.
