

**STATE OF NEW HAMPSHIRE
PUBLIC UTILITIES COMMISSION**

DE 19-197

ELECTRIC AND NATURAL GAS UTILITIES

Development of a Statewide, Multi-Use Online Energy Data Platform

Procedural Order Re: Motion to Schedule Additional Prehearing Conference

On March 2, 2022, the Commission issued Order No. 26,589, in which it approved the design and framework proposed by the parties for the development and implementation of the statewide, multi-use online energy data platform (data platform). Order No. 26,589 provided an illustrative timeline of the steps that would be required for Commission oversight of the data platform, which included a status conference for the presentation of, among other things, customer interface demonstrations. *Id.* at 17. In Order No. 26,644 (June 24, 2022), which clarified Order No. 26,589, the Commission requested that the parties provide a working model of the data platform at the status conference to show how it would be navigated. *Id.* at 7. The parties were required to notify the Commission when they were ready for a status conference. *Id.* at 9.

The parties who participated during the prehearing conference held on June 3, 2022, with the exception of the New Hampshire Department of Energy (DOE), filed a motion on August 11, 2022, to schedule an additional prehearing conference for the purpose of presenting a live demonstration of the customer experience with the Application Programming Interface (API), which allows customers and third-party users to register to access and share data. The moving parties requested that the Commission schedule the prehearing conference sometime between September 26 and October 14, 2022, using a hybrid format, so that Michael Murray of Mission:data Coalition, who is based on the West Coast, could present a live working model on a web browser. In addition, they requested

that Clean Energy New Hampshire's (CENH) consultant, who also resides out of state, be permitted to participate remotely. The DOE did not file a response to this motion.

The moving parties' motion to schedule a working model demonstration of the API is GRANTED. A status conference is scheduled on Thursday, October 6, 2022, at 1:30 p.m., during which this presentation will be made. Three hours are allotted for this status conference, which shall be conducted using a hybrid format in accordance with the attached, revised hearing guidelines. Mr. Murray and CENH's consultant will be permitted to appear remotely at the status conference. Any other parties or witnesses wishing to appear remotely at the October 6 status conference, however, will be required to file a separate request.

So ordered, this twenty-third day of August, 2022.

Daniel C. Goldner
Presiding Officer
Chairman
