Re: Docket DE 20-066

**PETITION OF PUBLIC SERVICE COMPANY OF NEW HAMPSHIRE D/B/A
EVERSOURCE ENERGY FOR LICENSE TO CONSTRUCT AND MAINTAIN
ELECTRIC LINES OVER AND ACROSS THE SOUHEGAN RIVER IN
GREENVILLE AND LAND OWNED BY THE STATE OF NEW HAMPSHIRE,
IN MASON AND GREENVILLE, NEW HAMPSHIRE**

Dear Director Howland:

This letter addresses Public Service Company of New Hampshire d/b/a Eversource Energy's revisions to the Exhibit drawings in Docket 20-066, pursuant to discussion with the Safety Division:

The static wire identified on in the profile view of Exhibits 2 through 6 as "Line 367 Static, Ø.236" and identified in the profile view of Exhibits 7 through 12 as "Line 367 Static, Ø.456" should be corrected in Exhibits 2 through 12 to instead state: "Line 367 7#8 Alumoweld Static Wire, Ø.385". The specification of the telecommunication wire identified as "AFL OPGW DNO-7840 Fiber" and the sag condition, "@ 32° with ½" of ice" remains unchanged. There are no other changes to the exhibit drawings or petition except as noted in this letter.

Pursuant to the Commission's notice of March 17, 2020, this filing is only being provided by email.

Thank you and please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Erik Newman".

Erik Newman
Senior Counsel
